National Guard Youth Challenge and Job Challenge Demonstration	The purpose of this program is to improve the long-term labor market prospects of youth who have had prior involvement in the juvenile justice system, and have successfully completed the 22-week Residential Phase of the National Guard Youth Challenge Program. The Job Challenge Demonstration will build on the Youth Challenge Program's eight core components – academic excellence, life coping skills, job skills, health and hygiene, responsible citizenship, community service, leadership/followership, and physical fitness – by emphasizing programming focused on improving program participants' employment outcomes. The Job Challenge Demonstration will supplement the Youth Challenge model's Job Skills component that prepares participants for long-term, gainful employment. The Job Challenge Demonstration is intended to enhance these activities by providing participants with a robust vocational experience over the ensuing 150 days that will place them on a pathway towards credential attainment and/or employment	TBD	Anticipated Date for the Solicitation Grant Announcement is October 2014	TBD	<a href="http://www.doleta.gov/grants/pdf/ETA_Funding_Opportunities_updated_6314.pdf">http://www.doleta.gov/grants/pdf/ETA_Funding_Opportunities_updated_6314.pdf</a>
American Apprenticeship	The new American Apprenticeship Grants competition – which will be launched in the	TBD	Anticipated Date for the Solicitation Grant	TBD	<a href="http://www.doleta.gov/grants/pdf/ET">http://www.doleta.gov/grants/pdf/ET</a>

Grants	<p>fall – will focus on partnerships between employers, labor organizations, training providers, community colleges, local and state governments, the workforce system, non-profits and faith-based organizations that:</p> <ul style="list-style-type: none"> <li>• Launch apprenticeship models in new, high-growth fields: Many fast-growing occupations and industries with open positions, such as in information technology, high-tech services, healthcare, and advanced manufacturing, have an opportunity to adopt and adapt apprenticeship programs, to meet their skilled workforce needs.</li> <li>• Align apprenticeships to pathways for further learning and career advancement: Apprenticeships that embed industry-recognized skills certifications or reward workplace learning with college credit provide an affordable educational pathway for those who need to earn while they learn, and apprenticeships linked to pre-apprenticeship programs can help more Americans access this training and get on an early pathway to a good career.</li> <li>• Scale apprenticeship models that work: Across the country, there are pockets of excellence in apprenticeship, but all too often these successful models are unknown in other regions or to other employers. These grants will build from strength and invest in innovations and strategies to scale apprenticeships – including to market the value of apprenticeships, make them more attractive to women and other Americans</li> </ul>		Announcement is Fall 2014.
