V.2.2 (September 2017)

## Major Changes Since Version 2.1 (June 2017)

### Data file

Improved accuracy of metrics for six-digit OPEIDs that consist of more than 1 IPEDS UNITID by **using the metric-specific denominators as the weight** in creating weighted averages (vs. using the undergraduate degree-seeking student count for all metrics)

**Changed aggregation from UNITID to six-digit OPEID for the percent Pell and percent federal borrowers** metrics to use the median share of Pell students (federal borrowers) across the campuses sharing a six-digit OPEID.

Scorecard changed its calculation of **percent of entering class that are first-time, full-time students** to be able to include more institutions; this file still pulls the data from Scorecard directly.

**Institutions with no branches operating** as of August 18, 2017 (based on the Scorecard currently operating flag CURROPER) were **excluded** from the calculations in this file. **All branches from institutions with at least one branch in operation** as of August 18, 2017 (based on the Scorecard currently operating flag CURROPER) were **included** in these calculations.

**Updated College Scorecard data elements** to use data published on technical site in September 2017

**Updated FSA data-based metrics** to use the most current data available as of September 2017

90/10 revenue percentages	2014-15 award year
Financial responsibility composite scores	2014-15 award year
Title IV volume (grants, loans, and campus-based)	2015-16 award year
Heightened Cash Monitoring (level 1 and 2)	June 1, 2017

**Values that correspond to the break point in ranges** given in the All Accreditors tab are now classified in the higher range.

Technical Notes				
All elements		Data elements with blank values in the All Accreditors or All Institutions tabs indicate that there was no data for this metric in the source data for the institution or group of institutions. This missingness could be due to the element not applying to the institution (e.g., Net Price of attendance for full-time, first-time students at graduate-only institutions) or because of suppression (e.g., earnings data). Regarding suppression, data are included in these tabs when both the count of students supporting the metric and the metric itself are reported (not suppressed). Values of 0 in these tabs are reported or rounded 0's and do not represent missing data.		
Universe of institutions and accreditors (exclusions)		<ul style="list-style-type: none"> <li>Includes institutions with at least one currently operating location participating in Title IV programs according to the <b>September 2017</b> release of College Scorecard. Because some metrics are calculated at the IPEDS reporting unit (UNITID) level and others are calculated at the institution (six-digit OPEID) level, when an institution met the criteria for inclusion, all associated locations included in the College Scorecard (regardless of their individual currently operating status) were included in these metrics to maintain consistency across metric sources. May not reflect recent changes in Title IV participation or location. Exclusions include: OPEID not in (" " "-2") and ACT in ("A" "N" "R") and OPEFLAG in (1 2) and (instcat&gt;=0 or is PerfectChild=1). See College Scorecard documentation for more details.</li> <li>Only includes primary institutional accreditor relationships as of August 2017, according to PEPS. May not reflect recent updates to status in PEPS or other records of institutional accreditation.</li> <li>Excludes secondary accreditor relationships in PEPS, which are voluntarily reported by institutions.</li> <li>Excludes non-accredited institutions with small Title IV participating programs that are programmatically accredited by institutional accreditors (e.g., vocational programs offered by secondary schools).</li> <li>FSA only calculates financial responsibility composite scores for private nonprofit, and for-profit institutions.</li> <li>FSA only calculates 90/10 revenue percentage for for-profit institutions.</li> </ul>		
Aggregation from Unit ID to six-digit OPEID (IPEDS and other location-level source data)		<ul style="list-style-type: none"> <li>Institution name - Name of school as of August 2017, according to PEPS.</li> <li>Locations - Total number of all main/branch campuses listed in IPEDS that correspond to six-digit OPEID.</li> <li>Undergraduates - Total of all undergraduates attending main/branch campuses corresponding to six-digit OPEID.</li> <li>Predominant award - Predominant award conferred after aggregating awards across all main/branch campuses corresponding to six-digit OPEID.</li> <li>Control - For each six-digit OPEID, assumes all main/branch campuses have the same control. For the Scorecard data updated in September 2017, there was one six-digit OPEID grouping with mixed control. For this group, the control corresponding to the most undergraduate students was assigned to the six-digit OPEID.</li> <li>Only distance education - Equal to one if any campus associated with the six-digit OPEID includes only distance education programs.</li> <li>Predom. Black, ANNHI, TRIBAL, AANAPII, Hispanic Serving Institution, NANTI, and HBCU- Indicates if at least one main/branch campus corresponding to the six-digit OPEID is designated as a minority serving institution in each of the categories.</li> <li>Pell/borrowers- Mean share of Pell students (federal borrowers), weighted by number of undergraduates in the fall enrollment cohort (for institutions that primarily follow an academic year calendar system) or the full-year enrollment cohort (for institutions that primarily follow a continuous enrollment or program-based calendar system). Please note that this number of undergraduates is not the same as the degree-seeking undergraduate students value provided in this file.</li> <li>Average net price - Mean average price, weighted by number of students in IPEDS title IV financial aid cohort at each campus.</li> <li>Graduation rate - Mean graduation rate, weighted by number of student IPEDS adjusted fall first-time, full-time cohort at each campus.</li> <li>Percent of entering undergraduates that are first-time, full-time students - mean percentage, weighted by the number of entering undergraduate students at each campus. NOTE: proportion of undergraduates who are first-time, full-time is calculated from the IPEDS Fall Enrollment component. IPEDS calculates this measure as the quotient of the number of full-time, first-time students divided by the count of all entering undergraduates. These counts are a subset of the degree-seeking undergraduate students provided in this file.</li> </ul>		

<b>Aggregation from Unit ID to six-digit OPEID (FSA and Treasury source data)</b>	<ul style="list-style-type: none"> <li>• Earnings - Mean (weighted) median and threshold earnings. Note for almost all institutions earnings are the same across all campuses corresponding to the same six-digit OPEID. Due to changes over time in the six-digit OPEID to UnitID crosswalk, there are a small number of institutions for which earnings is different across campuses. When this occurs, a weighted average of the differing earnings metrics is calculated using the count of students included in each metric as the weight. As a result, the calculated mean may not precisely measure the median or threshold earnings of the whole institution.</li> <li>• FSA data variables - Assumes one-to-one correspondence between six-digit OPEID and database on FSA sources. For 90/10 percentage, may contain repeating values because it does not take into account "school groups" (e.g., corporate parent holding companies).</li> </ul>
<b>Linkage of source files</b>	<ul style="list-style-type: none"> <li>• Data file generated by using six-digit OPEID to link PEPS (accreditation info), Title IV volume reports (FSA Data Center), and College Scorecard data.</li> <li>• Observations not matching with currently operating institutions on the College Scorecard were discarded.</li> <li>• Linkages could be affected by changes in the structure and operating status of institutions over time.</li> <li>• Six-digit OPEID generated by taking the second through sixth characters of the eight-digit OPEID. First digit ignored because it indicates third digit of branch campuses.</li> </ul>
<b>Aggregation from six-digit OPEID to accreditor and national figures</b>	<ul style="list-style-type: none"> <li>• Measures aggregated according to the accreditor corresponding to each six-digit OPEID.</li> <li>• National totals and averages do not equal the totals and averages of accreditors because <b>77 institutions</b> on College Scorecard not currently institutionally accredited according to PEPS (see note on universe of institutions).</li> <li>• For categorical variables (e.g., HCM1/2), counts, and total \$ amounts (e.g., control, # undergraduates, Title IV volume), summed up across institutions. Excludes counts of missing values for each variable.</li> <li>• For the share of Pell students (federal borrowers), the median of the institutional mean ratios is displayed.</li> <li>• For other ratios and averages (e.g., \$ Pell and median earnings), applied same weights to IPEDS data as used for aggregation from Unit ID to six-digit OPEID (see technical notes above). For earnings, repayment, and default data weighted by the undergraduate cohorts corresponding to each measure.</li> </ul>
<b>Financial Responsibility Composite Score</b>	<p>A score greater than or equal to 1.5 indicates the institution is considered financially responsible. Schools with scores of less than 1.5 but greater than or equal to 1.0 are considered financially responsible, but require additional oversight. These schools are subject to cash monitoring and other participation requirements. A school with a score less than 1.0 is considered not financially responsible. However, a school with a score less than 1.0 may continue to participate in the Title IV programs under provisional certification. In addition, this lower score typically requires that the school be subject to cash monitoring requirements and post a letter of credit (equal to a minimum of 10 percent of the Title IV aid it received in the institution's most recent fiscal year).</p>
<b>90/10 Revenue Percentage</b>	<p>Section 487(d)(4) of the Higher Education Act of 1965 (HEA), as amended, requires the Secretary to annually submit a report to Congress containing information regarding the amount and percentage of each proprietary institution's revenues from Title IV sources and non-Title IV sources as provided by the institution in its audited financial statements. The reports are sent to the Chairmen and Ranking Members of the corresponding House and Senate authorizing committees. Below, you can access the 90/10 transmittal letters, summary charts and reports for institutions with fiscal years ending in the corresponding award year. This information relates to the requirement under the HEA that a for-profit institution of postsecondary education derive at least 10 percent of its revenue from non-Title IV sources (i.e., the 90/10 rule).</p>
