Key Dashboard Measures: Cheat Sheet

Measure	Universe/cohort	Total*				
Institutions	Currently operating Title IV participating institutions	5,056 institutions				
Locations	Main/branch campuses of currently operating Title IV participating institutions	6,371 main/branch campuses				
HCM2	Currently operating Title IV participating institutions	38 out of 5,132 institutions				
Degree and certificate seeking undergraduates	Fall-enrolled degree and certificate seeking undergraduates	About 14.1 million students				
Title IV Federal student aid volume	Undergraduates & graduate students	About \$107 billion				
Predominant degree & control	Currently operating Title IV participating institutions	2,060 four-year and above 2,996 less than four-year 1,830 public				
		1,657 private, nonprofit 1,569 for-profit				
Percent Pell	Undergraduates	About 38 percent out of 14.5 million students received Pell				
Percent borrowing	Undergraduates	About 43 percent out of 14.5 million students received loans				
Graduation rate	First-time, full-time degree/certificate- seeking undergraduates entering during fall	About 55 percent out of 2.6 million students graduated				
Completion+Transfer rate	All degree/certificate-seeking undergraduates entering the institution in the cohort year	About 67 percent out of 7.9 million students either completed or transferred to another institution within 8 years of entering the focus institution				
Median earnings	Undergraduates receiving federal student aid, excludes zero earners and the still-enrolled	About 5.0 million students				
Median (cumulative) debt of completers	Federal borrowers, only undergraduate completers	About 3.1 million borrowers				
Net price	First-time, full-time undergraduates, only federal student aid recipients	About 1.3 million students				

NOTE: Size of universe/cohort is not comparable across dashboard measures because each measure is calculated for different years as well as number of single-year cohorts of students. See README for more details on descriptions, measurement years, and sources.

Dashboard Notes

Universe of institutions and accreditors

- Only includes institutions participating in Title IV federal financial aid programs with at least one branch currently operating according to the April 2023 release of College Scorecard
- Only includes primary institutional accreditor relationships as of March 2023, according to PEPS

This document (PDF) and accompanying data file contain the following information on accreditors:

All accreditors (in data file) - Contains statistics for each accreditor and all undergraduates nationally, used to validate dashboards

All institutions (in data file) - Institution level data with all elements, population web-based and PDF dashboards.

All institutions dashboard (in PDF) - Depicts select measures on student characteristics and outcomes at all Title IV participating institutions

Large institutions (in PDF) - List of institutions with at least \$200 million in Title IV federal student aid volume by accreditor and select measures

Primarily Certificate (in PDF) - Depicts select measures for all primarily certificate-granting institutions

Primarily Associate's (in PDF) - Depicts select measures for all primarily associate's degree-granting institutions

Primarily Bachelor's (in PDF) - Depicts select measures for all primarily bachelor's degree-granting institutions

Graduate-only (in PDF) - Depicts select measures for all graduate-only institutions

Accreditor dashboards (in PDF) - Depicts select measures for the institutions overseen by the accreditor for Title IV gatekeeping purposes (primary accreditor only)

31	White undergraduates	Undergraduates who identify as white	Fall 2021	College Scorecard (IPEDS): https://collegescorecard.ed.gov/data/
32	Undergraduates of color	Undergraduates who identify as black or African American, Hispanic or Latino, Asian, Native Hawaiian or Other Pacific Islander, American Indian or Alaska Native, or more than one race	Fall 2021	College Scorecard (IPEDS): https://collegescorecard.ed.gov/data/
33	Other undergraduates	Undergraduates who identify as unknown or nonresident alien	Fall 2021	College Scorecard (IPEDS): https://collegescorecard.ed.gov/data/
34	Entering undergraduate students that are first-time, full-time	Share of entering undergraduate students who are first-time, full-time degree-/certificate-seeking undergraduate students, calculated using IPEDS Fall Enrollment counts (full-time, first-time degree-/certificate-seeking students divided by the sum of all first-time and transfer-in degree-/certificate-seeking students).	Fall 2021	College Scorecard (IPEDS): https://collegescorecard.ed.gov/data/
35	Completion and transfer rate	Share of all entering undergraduate students (including part-time and non-first-time students) that completed college or who subsequently enrolled at another institution within 8 years of entering the focus institution. Calculated using the IPEDS Outcome Measures component data.	Academic year 2021-22	College Scorecard (IPEDS): https://collegescorecard.ed.gov/data/
36	Median (cumulative) PLUS loan debt	Median cumulative PLUS loan debt associated with students at the institution 7 of	Award Year 2019-20 and 2020-21 (2-year pooled)	College Scorecard (IPEDS): https://collegescorecard.ed.gov/data/

37 Debt to earnings ratios

Median debt to earnings calculated by credential level for the annual debt to earnings rate (annual loan payment/annual earnings) and the discretionary debt to earnings rate (annual loan payment/(annual earnings - 150% of poverty in 2019)). Data are limited due to privacy suppression.

Technical Notes

All elements

Data elements with blank values in the All Accreditors or All Institutions tabs indicate that there was no data for this metric in the source data for the institution or group of institutions. This missingingness could be due to the element not applying to the institution (e.g., Net Price of attendance for full-time, first-time students at graduate-only institutions) or because of suppression (e.g., earnings data). Regarding suppression, data are included in these tabs when both the count of students supporting the metric and the metric itself are reported (not suppressed). Values of 0 in these tabs are reported or rounded 0's and do not represent missing data.

Universe of institutions and accreditors (exclusions)

- Includes institutions with at least one currently operating location participating in Title IV programs according to the April 2023 release of College Scorecard. Because some metrics are calculated at the IPEDS reporting unit (UNITID) level and others are calculated at the institution (six-digit OPEID) level, when an institution met the criteria for inclusion, all associated locations included in the College Scorecard (regardless of their individual currently operating status) were included in these metrics to maintain consistency across metric sources. May not reflect recent changes in Title IV participation or location. Included institutions met the following criteria: OPEID not in ("" "-2") and ACT in ("A" "N" "R") and OPEFLAG in (1 2) and (instcat>=0 or is PerfectChild=1). See College Scorecard documentation for more details.
- Only includes primary accreditor relationships as of March 2023, according to PEPS. May not reflect recent updates to status in PEPS or other records of institutional accreditation.
- Excludes secondary accreditor relationships in PEPS, which are voluntarily reported by institutions.
- FSA only calculates financial responsibility composite scores for private nonprofit, and for-profit institutions.
- FSA only calculates 90/10 revenue percentage for for-profit institutions.
- 13A only calculates 30/10 revenue percentage for for-profit institutions.

Aggregation from Unit ID to six-digit OPEID (IPEDS and other location-level source data)

- Institution name Name of school as of March 2023, according to PEPS.
- Locations Total number of all main/branch campuses listed in IPEDS that correspond to six-digit OPEID.
- Undergraduates Total of all undergraduates attending main/branch campuses corresponding to six-digit OPEID.
- Predominant degree Predominant degree awarded after aggregating awards across all main/branch campuses corresponding to six-digit OPEID.
- Control For each six-digit OPEID, assumes all main/branch campuses have the same control. For the Scorecard data updated in April 2023, there wre no six-digit OPEID groupings with mixed control.
- Only distance education Equal to one if any campus associated with the six-digit OPEID includes only distance education programs.
- Predom. Black, ANNHI, TRIBAL, AANAPII, Hispanic Serving Institution, NANTI, and HBCU- Indicates if at least one main/branch campus corresponding to the six-digit OPEID is designated as a minority serving institution in each of the categories.
- Pell/borrowers- Mean share of Pell students (federal borrowers), weighted by number of undergraduates in the fall enrollment cohort (for institutions that primarily follow an academic year calendar system) or the full-year enrollment cohort (for institutions that primarily follow a continuous enrollment or program-based calendar system). Please note that this number of undergraduates is not the same as the degree-seeking undergraduate students value provided in this file.
- Average net price Mean average price, weighted by number students in IPEDS title IV financial aid cohort at each campus.
- Graduation rate Mean graduation rate, weighted by number of student IPEDS adjusted fall first-time, full-time cohort at each campus.
- Percent of entering undergraduates that are first-time, full-time students mean percentage, weighted by the number of entering undergraduate students at each campus. NOTE: proportion of undergraduates who are first-time, full-time is calculated from the IPEDS Fall Enrollment component. IPEDS calculates this measure as the quotient of the number of full-time, first-time students divided by the count of all entering undergraduates. These counts are a subset of the degree-seeking undergraduate students provided in this file.

Aggregation from Unit ID to six-digit OPEID (FSA and Treasury source data)

- Earnings Mean (weighted) median earnings. Note for almost all institutions earnings are the same across all campuses corresponding to the same six-digit OPEID. Due to changes over time in the six-digit OPEID to UnitID crosswalk, there are a small number of institutions for which earnings are different across campuses. When this occurs, a weighted average of the differing earnings metrics is calculated using the count of students included in each metric as the weight. As a result, the calculated mean may not precisely measure the median earnings of the whole institution. Similar methods apply to aggregation acorss credential levels.
- FSA data variables Assumes one-to-one correspondence between six-digit OPEID and database on FSA sources. For 90/10 percentage, may contain repeating values because it does not take into account "school groups" (e.g., corporate parent holding companies). Median completer debt is aggegated across credential levels by weighted average, using the count of completers as the weight.

Linkage of source files

- Data file generated by using six-digit OPEID to link PEPS (accreditation info), Title IV volume reports (FSA Data Center), and College Scorecard data.
- $\bullet \ \, \text{Observations not matching with currently operating institutions on the College Scorecard were discarded}.$
- Linkages could be affected by changes in the structure and operating status of institutions over time.
- Six-digit OPEID generated by taking the second through sixth characters of the eight-digit OPEID. First digit ignored because it indicates third digit of branch campuses.

Aggregation from six-digit OPEID to accreditor and national figures

- Measures aggregated according to the accreditor corresponding to each six-digit OPEID.
- For categorical variables (e.g., HCM1/2), counts, and total \$ amounts (e.g., control, # undergraduates, Title IV volume), data are summed across institutions. Excludes counts of missing values for each variable.
- For the share of Pell students (federal borrowers), the median of the institutional mean ratios is displayed.
- For other ratios and averages (e.g., \$ Pell and median earnings), the same weights are applied to IPEDS data as used for aggregation from Unit ID to six-digit OPEID (see technical notes above).
- For earnings, debt, and default, data are weighted by the cohorts corresponding to each measure.
- For debt-to-earnings ratios, median values are calculated without weighting.

Financial Responsibility Composite Score

A score greater than or equal to 1.5 indicates the institution is considered financially responsible. Schools with scores of less than 1.5 but greater than or equal to 1.0 are considered financially responsible, but require additional oversight. These schools are subject to cash monitoring and other participation requirements. A school with a score less than 1.0 is considered not financially responsible. However, a school with a score less than 1.0 may continue to participate in the Title IV programs under provisional certification. In addition, this lower score typically requires that the school be subject to cash monitoring requirements and post a letter of credit (equal to a minimum of 10 percent of the Title IV aid it received in the institution's most recent fiscal year).

90/10 Revenue Percentage

Section 487(d)(4) of the Higher Education Act of 1965 (HEA), as amended, requires the Secretary to annually submit a report to Congress containing information regarding the amount and percentage of each proprietary institution's revenues from Title IV sources and non-Title IV sources as provided by the institution in its audited financial statements. The reports are sent to the Chairmen and Ranking Members of the corresponding House and Senate authorizing committees. Below, you can access the 90/10 transmittal letters, summary charts and reports for institutions with fiscal years ending in the corresponding award year. This information relates to the requirement under the HEA that a for-profit institution of postsecondary education derive at least 10 percent of its revenue from non-Title IV sources (i.e., the 90/10 rule).

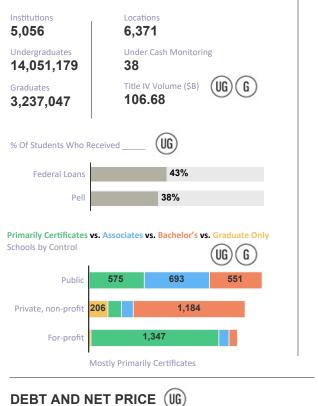

Annual and Discretionary Debt-to-Earnings

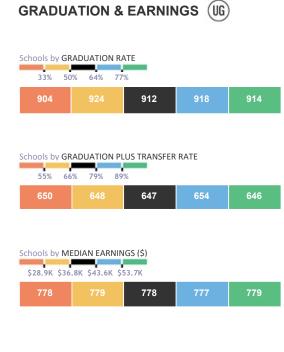

The debt and earnings variables and the debt-to-earnings calculations in the datafiles and visualizations were derived from the Gainful Employment (GE) datafile (https://www2.ed.gov/policy/highered/reg/hearulemaking/2021/nprm-2022ppd-public-suppressed.xlsx) published on May 17, 2023, in conjunction with a notice of proposed rulemaking (NPRM). These calculations estimate a proposed methodology in a proposed regulation that is intended to promote transparency, accountability, and other values in the provision of postsecondary education. Users should note 2 key caveats in interpreting these data:

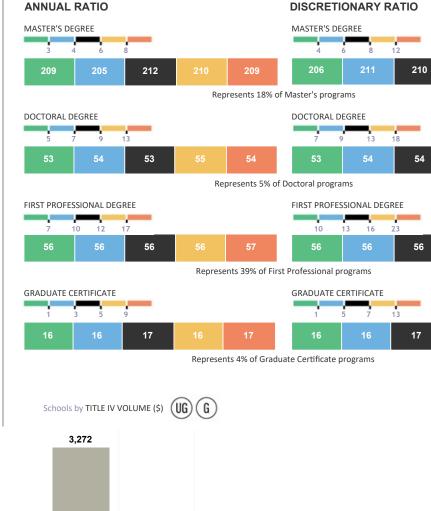

- •The NPRM's proposed methodology for GE debt-to-earnings metrics is still being considered by the Department, and a final regulation may use a different methodology compared to the NPRM.
- •The published calculations themselves are estimates of the NPRM's proposed methodology, and there are differences between the NPRM's data and proposed methodology and the GE datafile's methodology and data that are currently available for calculations and analysis. For example, the currently available GE datafile calculates debt and earnings values using a unit of analysis at the four-digit Classification of Instruction Program (CIP) level, whereas the proposed regulation in the NPRM would calculate values using a unit of analysis at the six-digit CIP level. Additional detail on the GE datafile and methodology is available at https://www2.ed.gov/policy/highered/reg/hearulemaking/2021/index.html, under Federal Register Notices and Fact Sheets.

Key

undergraduates: blue = more undergraduates % receiving Pell: black = more Pell students % borrowing: black = more borrowers Graduation rate: red = less than 50%

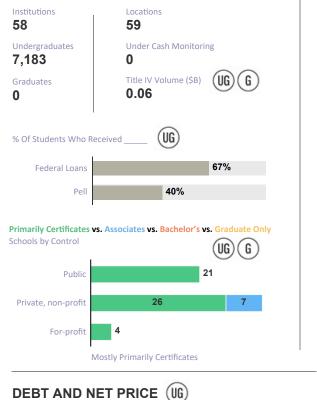

Predominant award

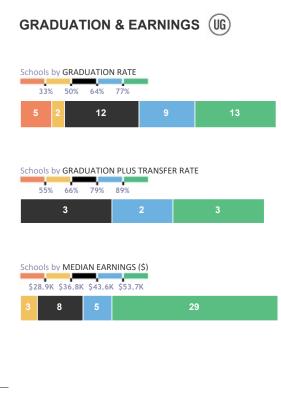

^{*} Predominant award conferred after aggregating awards across all main/branch campuses corresponding to six-digit OPEID.

[&]quot;Graduate" indicates that all main/branch campuses are graduate only.
