## Introduction

Black colleges and universities have made historic and ongoing contributions to the general welfare and prosperity of our country and served as engines of economic growth. These institutions, which today serve more than 300,000 undergraduate and graduate students, have enabled men and women of all ethnic, racial, and economic grounds, especially African Americans, to assume leadership and service roles in their communities.

To build on this history, the White House Initiative on Historically Black Colleges and Universities (the Initiative), as described in Executive Order 13532, Section 2, was established to work with a range of public and private departments, agencies, offices, philanthropic organizations, and other entities “to increase the capacity of HBCUs to provide the highest-quality education to a greater number of students.” The initiative’s many tasks include “strengthening the capacity of HBCUs to participate in Federal programs.”

The executive order, signed on February 26, 2010, requires designated federal departments and agencies to prepare annual plans for improving education in Historical Black Colleges and Universities (HBCUs) and to produce and submit annual progress reports to the president and the education secretary. (See Section 4, Point 4.) The 2010 order revoked a previous order that had been in effect since February 2, 2002. The Initiative is housed in the U.S. Department of Education (ED).

## Executive Summary

Executive Order 13532, Section 4, signed by President Obama on Feb. 26, 2010 (see Appendix A), states that the executive departments and agencies designated by the secretary “shall provide timely reports and such information as required to effectively carry out the objective of this order.” This report describes the funding support, from 26 participating federal departments and agencies, to the nation’s 106 Historically Black Colleges and Universities (HBCUs), during Fiscal Year (FY) 2011.

In FY 2011, the nation’s 106 HBCUs received \$5,196,377,927 in federal financial assistance (i.e., grants, student loans, and other educational assistance programs) from 26 of 32 reporting federal departments and agencies. During this reporting period, six designated federal agencies did not report any federal awards to HBCUs. Those agencies are 1) Central Intelligence Agency, 2) Federal Deposit Insurance Corporation, 3) Office of Personnel Management, 4) Peace Corps, 5) Smithsonian, and 6) Department of State.

Federal funds allocated to HBCUs in FY 2011 accounted for 2.8 percent of all federal funds awarded to all Institutions of Higher Education (IHEs) and represented a modest increase over the 2.7 percent share in FY 2010. In FY 2011, funding to HBCUs increased between FY 2010 and FY 2011, while funding to all IHEs decreased from \$191.7B to \$184B. This marked the fifth straight year of increased funding to HBCUs.

## Methodology

The White House Initiative on HBCUs (WHI-HBCU) issued an annual data call to identify the funds provided to HBCUs during the previous fiscal year. It received reports from 26 agencies, representing 74 percent of all designated agencies. Most of the tables in this report contain three kinds of data: 1) funds provided to all Institutions of Higher Education (IHEs); 2) funds provided to HBCUs; and 3) percentage of IHE funds awarded to HBCUs.

Although the WHI-HBCU received most of the requested data that was necessary to compile this report, data from some of the designated agencies and departments are not included in it. This is due to either an agency failing to submit its report altogether or not specifically disclosing its awards in accordance with the established funding categories. As a result, missing entries in the tables are designated as “n/a” meaning “not available.”

As the data are summarized it is important to note that the missing data elements did not significantly impact this report for two reasons: 1) most of the support across the major funding categories was provided by only a few departments and agencies; and 2) the major funders provided the requested data elements.

The first row in each table represents the sum of all of the data in the respective columns. The majority of the support in each category was provided by 10 agencies and departments with well-established HBCU programs.

The tables in this report are presented twice:

- The rows of the tables within the body of the report are ordered by the dollar value of the funds awarded to HBCUs by the participating departments and agencies.
- To make it easier for readers to determine the funds awarded by specific departments or agencies, a duplicate set of tables in Appendix D presents the same data, but the rows are ordered alphabetically by the names of the participating departments and agencies.

## Part I. Overview of HBCU Funding in Fiscal Year 2011

Table 1 shows the total funds allocated by the participating federal departments and agencies to all Institutions of Higher Education (IHEs) and to all Historically Black Colleges and Universities (HBCUs) for fiscal years 2007 to 2011. The total funds awarded to HBCUs increased each year between 2007 and 2011. As shown in the last column of Table 1, the HBCU percentage share decreased between FY 2007 and FY 2010, from 3.1 percent to 2.65 percent. In FY 2011, HBCUs were awarded \$5,196,377,927, or 2.82 percent, a modest increase from the 2.65 percent they received in FY 2010.

Table 1. Amount of federal funding awarded to all IHEs and HBCUs, and percentage of IHE allocations awarded to HBCUs: FY 2007–11

Fiscal Year	IHEs	HBCUs	% HBCU Share
2007	\$117,656,478,000	\$3,644,896,348	3.1%
2008	\$134,479,809,000	\$3,964,987,750	2.95%
2009	\$174,472,081,000	\$4,780,696,771	2.74%
2010	\$191,767,661,000	\$5,083,932,493	2.65%
2011	\$184,069,491,878	\$5,196,377,927	2.82%

Table 2 identifies the funds awarded by each of the participating federal agencies and departments to HBCUs and to all IHEs. As shown in the table, 26 participating federal agencies and departments provided HBCUs with \$5,196,377,927 in FY 2011, representing 2.8 percent of the total \$184,069,491,878 that these departments and agencies awarded to all IHEs.

Of the 26 funding agencies and departments, five contributed more than \$50 million to HBCUs: Education, Health and Human Services, Agriculture, National Science Foundation, and Defense.

Table 2. Amount of federal funding awarded to all IHEs and HBCUs, and percentage of IHE funds awarded to HBCUs, by federal agency: FY 2011

Department/Agency	All IHEs	HBCUs	% HBCUs Share
TOTAL	\$184,069,491,878	\$5,196,377,927	2.8%

U.S. Department of Labor	\$585,559,870	\$786,236	0.1%
National Endowment for the Humanities	\$43,079,995	\$752,043	1.7%
U.S. Department of the Treasury*	n/a	\$446,958	n/a
Broadcasting Board of Governors	\$464,799	\$101,746	21.9%
Appalachian Regional Commission*	n/a	\$50,000	n/a
National Endowment for the Arts	\$5,498,825	\$10,000	0.2%

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

\* An “n/a” in the “HBCU % Share” column occurs when either of the other columns has an “n/a” entry or when the “All IHEs” column shows \$0; in such cases the HBCU share cannot be calculated. An “n/a” also occurs when the entry in the “All IHEs” column is less than the entry in the “HBCUs” column, a condition that indicates an incorrect entry in the “All IHEs” column.

Table 3 displays the allocation of federal support for HBCUs across 12 major funding categories. In FY 2011, funding for scholarships and tuition assistance accounted for \$3,873,869,452, representing 74.6 percent of all federal support for HBCUs in FY 2011. (Note that the total funds received by HBCUs in FY 2011 shown in Table 3 is smaller than the total reported in Table 2 because a few departments and agencies did not report how they allocated their support for HBCUs across the 12 categories.)

Table 3. Amount of funding awarded to all IHEs and HBCUs, and the percentage of IHE funds awarded to HBCUs, by funding category: FY 2011

Funding Categories	IHEs	HBCUs	% HBCU Share
TOTAL	\$182,966,479,053	\$5,193,146,257	2.8%
Scholarships and Tuition Assistance	\$148,093,267,368	\$3,873,869,452	2.6%
Research and Development	\$23,614,898,513	\$332,907,254	1.4%
Training	\$4,037,061,911	\$113,238,220	2.8%
Direct Institutional Subsidies	\$707,637,291	\$59,942,046	8.5%
Facilities and Equipment	\$340,545,399	\$36,420,147	10.7%
Fellowship, Recruitment, IPA	\$788,370,575	\$18,907,945	2.4%
Third Party Awards	\$14,513,206	\$10,458,067	72.1%
Private Sector Involvement	\$94,732,908	\$1,139,833	1.2%
Administrative Infrastructure	\$11,575,524	\$261,048	2.3%
Program Evaluation	\$30,234,235	\$128,403	0.4%
Economic Development	\$1,417,462	\$0	0.0%
Other*	\$5,232,224,660	\$745,873,842	14.3%

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

\*The funds included within the line item for Other categories accounts for the following: 1) ED allocations for items other than Federal Student Financial Assistance; 2) awards that were not categorized by the reporting agencies when submitted to the WHI-HBCU; and 3) additional funding categories reported by participating agencies (e.g., Program Evaluation, Fellowships/Internships, Third-Party Awards, Private-Sector Involvement, and Administrative Infrastructure).

The funding received by HBCUs for scholarships and tuition assistance is far greater than the amounts for any other category. As shown in Table 6, the Department of Education accounted for 99.5 percent of aid provided to students at HBCUs in FY 2011. Funds in the “Other” category in Table 3 include the U.S. Department of Education. As shown in Table 5, almost 95 percent of these funds (\$704,985,617) fall into a special class of student financial aid that is not comparable to the aid provided by the other participating departments and agencies.

Table 4 shows that \$633,924,189 was awarded to HBCUs in FY 2011 by federal departments and agencies, other than the Department of Education. More than half of these funds, \$332,907,254, supported research and development initiatives.

Table 4. Amount and percentage of federal funding awarded to HBCUs, excluding U.S. Department of Education funds, by funding category: FY 2011

Funding Categories	HBCUs	% HBCU Share
Total	\$633,924,189	100.0%
Research and Development	\$332,907,254	52.5%
Training	\$113,238,220	17.9%
Direct Institutional Subsidies	\$59,942,046	9.5%
Facilities and Equipment	\$36,420,147	5.7%
Scholarships and Tuition Assistance	\$19,633,001	3.1%
Fellowship, Recruitment, IPA	\$18,907,945	3.0%
Third Part Awards	\$10,458,067	1.6%

Administrative Infrastructure	\$261,048	0.0%
Program Evaluation	\$128,403	0.0%
Economic Development	\$0	0.0%
Other	\$40,888,225	6.5%

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

Table 5 shows the amount of funding provided by the U.S. Department of Education (ED) to IHEs and HBCUs in FY 2011. The data included in the table reflects funding that is unique to ED and is therefore not included in subsequent tables showing funding in other categories.

- ED provided \$3,854,236,451 in federal student financial assistance to students at HBCUs in FY 2011, which accounted for 84.5 percent of the total \$4,559,222,068 the Department awarded to HBCUs.
- ED also awarded \$704,985,617 to HBCUs for activities other than student financial assistance, which represents 24.4 percent of the funds the Department provided to all IHEs for such activities.

Although ED provides the highest amount of funding to HBCUs, its contributions do not directly correlate with the twelve major funding categories identified in Table 4 except for Scholarships and Tuition. Many of the Department's programs contribute to more than one of the other five categories in ways that are difficult to disaggregate. Accordingly, ED's contributions will not appear in subsequent tables showing categories of funding, except for Table 6, which displays the data for student aid.

Table 5 offers a general breakdown of ED's support to IHEs and HBCUs by disaggregating funds awarded in FY 2011 in accordance with the Department's two most basic funding categories: Federal Student Financial Assistance and Other Financial Assistance.

Table 5. Department of Education funding awarded to all IHEs and HBCUs, and the percentage of IHE funds awarded to HBCUs, by funding category: FY 2011

U.S. Dept. of ED Funding Categories	Description	IHEs	HBCUs	% HBCU Share
TOTAL		\$150,561,748,790	\$4,559,222,068	3.0%
Federal Student Financial Assistance	Federally financed grants and loans to assist students with the payment of tuition and other fees	\$147,677,554,594	\$3,854,236,451	2.6%
Federal Student Financial Assistance Grants	Includes: Pell, SEOG, Work-Study, ACG, SMART, and Teach Grant programs	\$37,780,546,172	\$1,085,777,602	2.9%
Student Financial Assistance Loans	Includes: FFEL, Direct Loans, and Perkins Loans programs	\$109,897,008,422	\$2,768,458,849	2.5%
Other Financial Assistance	Title III, Student Service Programs, International and Foreign Language Education, State Service, Institutional Service, and support provided by ED offices: OII, OESE, OSERS, OELA, and Office of Safe and Drug-Free Schools, Howard University	\$2,884,194,196	\$704,985,617	24.4%

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

Note: This table does not include the \$61,000,000 in loans provided to HBCUs under the Department of Education's HBCU Capital Financing Program.

## Part II. Allocations of Federal Support to all IHEs and to HBCUs, by Major Funding Categories

This section of the report details the contributions of each participating federal department and agency, in accordance with the five largest categories identified in Table 3—scholarships and tuition assistance, research and development, training, facilities and equipment, and direct institutional subsidies. (Note: the “Other” category listed in Table 3 and Table 4 is a designated category for funds allocated to functions not covered by the 11 major funding categories. Therefore, it is not discussed in this section.)

As shown in Table 3, funding for scholarships and tuition assistance was the largest source of federal funds for HBCUs, representing 74.6 percent of the total funds provided to HBCUs in FY 2011.

As shown in Table 6, the Department of Education was the predominant provider of financial aid to HBCU students in FY 2011, accounting for 99.5 percent of their total funding

Table 6. Amount of scholarships and tuition assistance awarded to all IHEs and HBCUs, and percentage of IHE funds awarded to HBCUs, by federal agency: FY 2011.

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

\* An “n/a” in the “HBCU % Share” column occurs when either of the other columns has an “n/a” entry or when the “All IHEs” column shows \$0; in such cases the HBCU share cannot be calculated. An “n/a” also occurs when the entry in the “All IHEs” column is less than the entry in the “HBCUs” column, a condition that indicates an incorrect entry in the “All IHEs” column.

As noted in Table 3, Research and Development (R & D) funding was the second largest category of federal support for HBCUs in FY 2011, representing 52.5 percent of the support outside of the funds provided by the U.S. Department of Education.

The R & D activities of the HBCUs contribute to increasing the nation’s progress in the fields of education, science, technology, and engineering.

Table 7 shows that five contributors accounted for 88.9 percent of the R & D funds awarded to HBCUs in FY 2011: Health and Human Services, Agriculture, Defense, National Science Foundation, and National Aeronautics and Space Administration.

Table 7. Amount of research and development funding awarded to all IHEs and HBCUs, and percentage of IHE funds awarded to HBCUs, by federal agency: FY 2011

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

\* An “n/a” in the “HBCU % Share” column occurs when either of the other columns has an “n/a” entry or when the “All IHEs” column shows \$0; in such cases the HBCU share cannot be calculated. An “n/a” also occurs when the entry in the “All IHEs” column is less than the entry in the “HBCUs” column, a condition that indicates an incorrect entry in the “All IHEs” column.

As shown in Table 4, training accounted for 17.9 percent of the federal support grants outside of the funds provided by ED in FY 2011. Table 8 shows that three agencies provided 90.5 percent of the training funds awarded to HBCUs – National Science Foundation, Health and Human Services, and Veterans Affairs.

Table 8. Amount of training funding awarded to all IHEs and HBCUs, and percentage of the IHE funds awarded to HBCUs, by federal agency: FY 2011

Funds allocated as direct institutional subsidies can be used for education and general expenses. The federal government either places no restrictions on the use of these funds or permits their use across a broad range of applications.

As shown in Table 10, Agriculture provided 85 percent of this support for HBCUs in FY 2011.

## Promoting Excellence, Innovation, and Sustainability at Historically Black Colleges and Universities

By the authority vested in me as President by the Constitution and the laws of the United States of America, in order to advance the development of the Nation's full human potential and to advance equal opportunity in higher education, strengthen the capacity of historically black colleges and universities to provide the highest quality education, increase opportunities for these institutions to participate in and benefit from Federal programs, and ensure that our Nation has the highest proportion of college graduates in the world by the year 2020, it is hereby ordered as follows:

### Section 1. Policy

Historically black colleges and universities (HBCUs) have made historic and ongoing contributions to the general welfare and prosperity of our country. Established by visionary leaders, America's HBCUs, for over 150 years, have produced many of the Nation's leaders in business, government, academia, and the military and have provided generations of American men and women with hope and educational opportunity. The Nation's 105 HBCUs are located in 20 States, the District of Columbia, and the U.S. Virgin Islands and serve more than 300,000 undergraduate and graduate students. These institutions continue to be important engines of economic growth and community service, and they are proven ladders of intergenerational advancement for men and women of all ethnic, racial, and economic backgrounds, especially African Americans. These institutions also produce a high number of baccalaureate recipients who go on to assume leadership and service roles in their communities and who successfully complete graduate and professional degree programs.

### Section 2. White House Initiative on HBCUs

(a) **Establishment.** There is established the White House Initiative on Historically Black Colleges and Universities (Initiative), to be housed in the Department of Education (Department).

(b) **Mission and Functions.** The Initiative shall work with executive departments, agencies, and offices, the private sector, educational associations, philanthropic organizations, and other partners to increase the capacity of HBCUs to provide the highest-quality education to a greater number of students, and to take advantage of these institutions' capabilities in serving the Nation's needs through five core tasks:

- i. Strengthening the capacity of HBCUs to participate in Federal programs;
- ii. Fostering enduring private-sector initiatives and public-private partnerships while promoting specific areas and centers of academic research and programmatic excellence throughout all HBCUs;
- iii. Improving the availability, dissemination, and quality of information concerning HBCUs to inform public policy and practice;
- iv. Sharing administrative and programmatic practices within the HBCU community for the benefit of all; and
- v. Exploring new ways of improving the relationship between the Federal Government and HBCUs.

(c) **Administration.** There shall be an Executive Director of the Initiative.

The Department shall provide the staff, resources, and assistance for the Initiative, and shall assist the Initiative in fulfilling its mission and responsibilities under this order.

**(d) Federal Agency Plans.**

- (1) Each executive department and agency designated by the Secretary of Education (Secretary) shall prepare an annual plan (agency plan) of its efforts to strengthen the capacity of HBCUs through increased participation in appropriate Federal programs and initiatives. Where appropriate, each agency plan shall address, among other things, the agency's proposed efforts to:
  - i. Establish how the department or agency intends to increase the capacity of HBCUs to compete effectively for grants, contracts, or cooperative agreements and to encourage HBCUs to participate in Federal programs;
  - ii. Identify Federal programs and initiatives in which HBCUs may be either underserved or underused as national resources, and improve HBCUs' participation therein; and
  - iii. Encourage public-sector, private-sector, and community involvement in improving the overall capacity of HBCUs.
- (2) Each department and agency, in its agency plan, shall provide appropriate measurable objectives and, after the first year, shall annually assess that department's or agency's performance on the goals set in the previous year's agency plan.
- (3) The Secretary shall establish a date by which agency plans shall be submitted to the Secretary. The Secretary and the Executive Director shall review the agency plans in consultation with the President's Board of Advisors on HBCUs, established in section 3 of this order, and shall submit to the President an annual plan to strengthen the overall capacity of HBCUs.
- (4) To help fulfill the objectives of these plans, the head of each department and agency identified by the Secretary shall provide, as appropriate, technical assistance and information to the Executive Director for purposes of communicating with HBCUs concerning program activities of the department or agency and the preparation of applications or proposals for grants, contracts, or cooperative agreements.
- (5) To help fulfill the goals of this order, each executive department and agency identified by the Secretary shall appoint a senior official to report directly to the department or agency head with respect to that department's or agency's activities under this order, and to serve as liaison to the President's Board of Advisors on HBCUs and to the Initiative. (e) *Interagency Working Group.* There is established the Interagency Working Group, which shall be convened by the Executive Director and that shall consist of representatives from agencies designated by the Secretary, to help advance and coordinate the work of Federal agencies pursuant to this order, where appropriate.

**Section 3. President's Board of Advisors on HBCUs**

- (a) ***Establishment.*** There is established in the Department the President's Board of Advisors on Historically Black Colleges and Universities (the Board). The Board shall consist of not more than 25 members appointed by the President. The President shall designate one member of the Board to serve as Chair, who shall coordinate with the Executive Director to convene meetings and help direct the work of the Board. The Board shall include representatives of a variety of sectors, including philanthropy, education, business, finance, entrepreneurship, innovation, and private foundations, as well as sitting HBCU presidents.
- (b) ***Mission and Functions.*** Through the Initiative, the Board shall advise the President and the Secretary on all matters pertaining to strengthening the educational capacity of HBCUs. In particular, the Board shall advise the President and the Secretary in the following areas:

- i. Improving the identity, visibility, and distinctive capabilities and overall competitiveness of HBCUs;
- ii. Engaging the philanthropic, business, government, military, homeland security, and education communities in a national dialogue regarding new HBCU programs and initiatives;
- iii. improving the ability of HBCUs to remain fiscally secure institutions that can assist the Nation in reaching its goal of having the highest proportion of college graduates by 2020;
- iv. Elevating the public awareness of HBCUs; and
- v. Encouraging public-private investments in HBCUs.

(c) **Administration.** The Executive Director of the Initiative shall also serve as the Executive Director of the Board. The Department shall provide funding and administrative support for the Board to the extent permitted by law and within existing appropriations. Members of the Board shall serve without compensation, but shall be reimbursed for travel expenses, including per diem in lieu of subsistence, as authorized by law. Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.), may apply to the Board, any functions of the President under that Act, except for those of reporting to the Congress, shall be performed by the Secretary, in accordance with guidelines issued by the Administrator of General Services.

(d) **Report.** As part of the annual report of the Initiative, the Board shall report to the President and the Secretary on their progress in carrying out its duties under this section.

#### **Section 4. General Provisions**

(a) For the purposes of this order, “historically black colleges and universities” shall mean those institutions listed in 34 C.F.R. 602.8.

(b) This order shall apply to executive departments and agencies designated by the Secretary. Those departments and agencies shall provide timely reports and such information as is required to effectively carry out the objectives of this order.

(c) The heads of executive departments and agencies shall assist and provide information through the White House Initiative to the Board, consistent with applicable law, as may be necessary to carry out the functions of the Board. Each executive department and agency shall bear its own expenses of participating in the Initiative.

(d) Nothing in this order shall be construed to impair or otherwise affect:

- i. The authority granted by law to an executive department, agency, or the head thereof; or
- ii. The functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(e) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(f) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(g) Executive Order 13256 of February 12, 2002, is hereby revoked.

Barack Obama  
The White House  
February 26, 2010

Source: Data was provided by participating federal agencies under Presidential Executive Order 13532 to the White House Initiative on HBCUs.

\* An “n/a” in the “HBCU % Share” column occurs when either of the other columns has an “n/a” entry or when the “All IHEs” column shows \$0; in such cases the HBCU share cannot be calculated. An “n/a” also occurs when the entry in the “All IHEs” column is less than the entry in the “HBCUs” column, a condition that indicates an incorrect entry in the “All IHEs” column.
