Department of Education Internship Opportunities

ED’s Student and Recent Graduates Internship Programs

The Department of Education (ED) offers internships for students and recent graduates interested in seeking valuable work experience in government and federal education, policy, and administration. Program participants have the opportunity to make meaningful contributions to the Department’s mission to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.

ED offers internships in the fall/winter, spring, and summer. The length of time that an intern is with the Department is based on the internship program that they are participating in and/or circumstances. Please read the programs information below.

Types of Internship Programs

Student Volunteer Trainee Program:

An eight to ten week program that offers volunteer opportunities to students enrolled in accredited educational institutions. Students who participate in the program will gain educational experience in their field of study or career interest and will develop personal and professional skills.

ED offers internships in the fall, winter/spring, and summer. Depending on circumstances, program opportunities may be reduced or extended.

Pathways Programs:

**Internship Program** – provides students who are enrolled in or accepted for enrollment in a wide variety of qualifying educational institutions with paid opportunities to work either part- or full-time in agencies and explore career paths related to their academic fields of study or career interests.

**Recent Graduates Program** – a one-year developmental program that promotes careers in the Federal Government to recent graduates.

**Presidential Management Fellows (PMFs) Program** – a two-year leadership development program for advanced degree (i.e. Masters, PH.D., etc.) candidates who demonstrate academic excellence, possess management and leadership potential, and have a clear interest in and commitment to public service.

Please note that availability of internships within given offices varies throughout the year. Some offices require specialized subject knowledge to qualify, and some programs have a positive education requirement.

In addition, Pathways Programs positions may be non-competitively converted to a permanent position; however, conversions are not mandatory or guaranteed.
